# Testimony\_

In 2019 I was in a womens drug addiction recovery program called RTC (Recovery Through Christ) during the Christmas season. It was hard for me as a mom to know I wasn't going to be able to have a Christmas for my children. Christmas was always a big holiday for us and not being able to get them gifts really hurt. But Christmas at the Cross decided to bless all of us girls with Christmas gifts for us women in the program AND gifts for our children. It was honestly the best Christmas ever! I had found the Lord, I was sober and got to see a Christmas miracle in real life! We were overjoyed and so grateful having such a HUGE prayer be answered. For some of them this was the very first Christmas they were able to have gifts for their children. The one thing I wanted for my children most of all was a bible with their name engraved. They got the best ones for each of their ages and seeing their names had me in tears, they were absolutely beautiful. And now to see them sitting beside me in church with them open in their laps melts my heart. And each time it's a reminder of such a blessing during one of the hardest, most important time in my life. Christmas at the Cross is such an amazing program and I hope that you would consider donating to this program and know that you are bringing smiles, happy tears and grateful hearts at Christmas time.
